

**SATELLITE RADIO RECEIVER THAT DISPLAYS INFORMATION  
REGARDING ONE OR MORE CHANNELS THAT ARE NOT CURRENTLY  
BEING LISTENED TO**

**ABSTRACT OF THE DISCLOSURE**

5           A satellite radio receiver includes a display that displays information regarding  
one or more channels that are not currently being listened to. For a music channel, this  
information may include the name of the artist, the song title, time left in the song, etc.  
For a news channel, this information may include the news currently being discussed, the  
name of the news program, the time remaining, etc. For a sports channel, this  
10 information may include the name of the channel, a description of the sporting event, the  
time remaining, etc. The preferred embodiments include different ways to select which  
channels are “favorites” and therefore displayed on the display. One way is to select one  
or more channels that are assigned to preset buttons on the radio receiver. Another way is  
to keep track of which channels are most frequently listened to, and to display  
15 information regarding those channels. The preferred embodiments extend to any and all  
mechanisms for displaying information regarding one or more channels that are not  
currently being listened to.
